STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION (Act of August 12, 1970: Section 3685. Title 39 United States Code) Date of Filing—October 1, 1999. Title of Publication—Clinical Journal of Sport Medicine; Frequency of Issue—Quarterly; Annual Subscription Price—$144.00; Location of Known Office of Publication—12107 Insurance Way, Hagerstown, MD 21740; Location of the Headquarters or General Business Offices of the Publisher—227 East Washington Square, Philadelphia, PA 19106; Publisher—Lippincott Williams & Wilkins, 227 East Washington Square, Philadelphia, PA 19106; Editor—Willem Meeuwisse, M.D., Ph.D., University of Calgary, Sport Medicine Centre, 2500 University Dr. NW, Calgary, Alberta, Canada T2N 1N4; Managing Editor—Sigrid Laitin, 1803 Research Blvd., Suite 300, Rockville, MD 20850; Owner—Lippincott Williams & Wilkins, a wholly owned subsidiary of Wolters Kluwer, U.S. Corporation, 227 East Washington Square, Philadelphia, PA 19106; 351 Camden St., Baltimore, MD 21201; 345 Hudson Street, New York, NY 10014; Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities—none. A. Total number of copies printed (*net press run*), average 2,723, actual 4,200; B. Paid circulation 1. Sales through dealers and carriers, street vendors and counter sales, average none, actual none; 2. Mail subscriptions, average 2,465, actual 2,882; C. Total paid circulation, average 2,465, actual 2,882; D. Free distribution by mail, carriers, or other means (*samples, complimentary, and other free copies*) average 65, actual 82; E. Total distribution (*sum of C and D*), average 2,530, actual 2,964; F. Copies not distributed 1. Office use, leftover, unaccounted, spoiled after printing, average 193, actual 1,236; 2. Returns from news agents, average none, actual none; G. Total (*sum of E and F—should equal net press runs shown in A*), average 2,723, actual 4,200. I certify that all information above is true and complete. Abbe Nelson, *Manager, Periodical Operations.*

SUBJECT INDEX

Abdominal strain injuries, in National Hockey League, 151
Abstracts, Canadian Academy of Sport Medicine, 107
Achilles tendon rupture, incidence of, in Scotland, 157
ACL. *See* Anterior cruciate ligament
Active life expectancy, smoking, physical activity and, 244
Active physical training, for long-standing adductor-related groin pain, 245
Adductor-related groin pain, active physical training for, 245
Adolescents
  growth and changes in flexibility in, 24
  skiing and snowboarding injuries in, in Southern Alberta, 9
  soccer and basketball players, ACL reconstructive surgery in, 138
Adults
  sedentary, lifestyle and structure physical activity programs for, 185
  young, fitness changes and lipid profiles in, 186
Adventure recreation, commercial whitewater rafting injuries, 18
Aerobic power, and risk factors for cardiovascular disease, 103
Airway, response to ipratropium bromide, in cross-country runners, 170
Alberta, Canada, skiing and snowboarding injuries in children and adolescents in, 9
Alpine skiing injuries, in children and adolescents, in Southern Alberta, 9
Anabolic steroids, hepatotoxicity, 34
Ankle
  instability, stress radiography diagnosis of, 40
  ultramarathoner's, 216
Anterior cruciate ligament injury, psychology of, 58
Anterior cruciate ligament reconstruction
  immediate weightbearing after, 189
  in adolescent soccer and basketball players, 138
Arthroscopic surgery, for rotator cuff disease, 247
Athletes. *See also specific sports*
  collegiate
    preparticipation physical examinations, 3
    recurrent epistaxis in, case report, 239
  collegiate football players, bilateral midfibular stress fractures in, case report, 95
  collegiate gymnasts, exertional headache in, case report, 182
  collegiate ice hockey players, injuries in
    causal analysis of, 30
    factors that predict, 248
  collegiate NCAA Division I, creatine supplement use by, 167
  collegiate volleyball players, spontaneous pneumomediastinum in, case report, 97
  female, bilateral first rib and unilateral second rib stress fractures in, case report, 177
  patellar tendinopathy in, surgical management of, 58
  psychological effects of injury in, 191
    longitudinal examination of, 58
  upper extremity stress fractures in, clinical features of, 199

Basketball players, adolescent, ACL reconstructive surgery in, 138
Benign prostatic hyperplasia, physical activity and, 106
Bilateral chronic exertional compartment syndrome, in brothers, case report, 91
Bilateral midfibular stress fractures, in collegiate football players, case report, 95
Blunt trauma, renal fracture secondary to, in football player, case report, 236
Body fatness, and injury rates in high school football linemen, 51
Bone mineral, training-induced gains, decreased training and, 246
Bone scans, triple-phase, of acute medial tibial stress syndrome, 101
Bronchus, response to ipratropium bromide, in cross-country runners, 170
Brothers, bilateral chronic exertional compartment syndrome in, case report, 91
Canada, Southern Alberta, skiing and snowboarding injuries in children and adolescents in, 9
Canadian Academy of Sport Medicine, abstracts, 107
Carbohydrate supplementation, and stroke performance in Tennis, 55
Cardiovascular disease, risk factors, aerobic power and physical activity and, 103
Case reports
  bilateral chronic exertional compartment syndrome of forearm in brothers, 91
  bilateral first rib and unilateral second rib stress fractures in female athlete, 177
  bilateral midfibular stress fractures in collegiate football player, 95
  exercise-associated hypogammaglobulinemia, 46
  exercise-induced rhabdomyolysis in woman, 233
  exertional headache in collegiate gymnast, 182
  Guillain-Barré syndrome, 241
  pelvic fracture from low-impact trauma in hockey player, 179
  radiating gluteal pain due to quadratus femoris muscle tear, 228
  recurrent epistaxis in college athlete, 239
  renal fracture secondary to blunt trauma in football player, 236
  spontaneous pneumomediastinum in collegiate volleyball player, 97
  spontaneous rupture of plantar fascia, 48
  stress fracture of ulna in baseball pitcher, 231
Children, skiing and snowboarding injuries in, in Southern Alberta, 9
Clinical Journal of Sport Medicine
  future directions for, 57
  new editor, 1
Cognitive responses, to ACL injury, longitudinal examination of, 58
Collegiate athletes
  football players, bilateral midfibular stress fractures in, case report, 95
  gymnasts, exertional headache in, case report, 182
  in NCAA Division I program, creatine supplement use by, 167
  intercollegiate ice hockey players, injuries in
    causal analysis of, 30
    factors that predict, 248
  preparticipation physical examinations, 3
  recurrent epistaxis in, case report, 239
  volleyball players, spontaneous pneumomediastinum in, case report, 97
Commercial whitewater rafting, injuries in, 18
Compartment syndrome, bilateral chronic exertional, of forearm, in brothers, case report, 91
Concussion, loss of consciousness and neuropsychological decrements after, 193
Consciousness, loss of, and neuropsychological decrements after concussion, 193
Creatine supplementation
  for endurance and sprint power, 105
  in NCAA Division I athletic program, 167
  oral, adverse effects of, 190
  safety concerns, 119
Cross-country runners, bronchial response to ipratropium bromide in, 170
Cybex Norm isokinetic dynamometer, test retest reliability of hip adductor and flexor strength with, 79

Detraining, intensified, effects on testicular function, 203
Diclofenac, topical, for chronic lateral epicondylitis, 56
Diet, and serum lipoprotein profile, 52

Eccentric kinetic chain exercise, for PCL rehabilitation, 142
Editorials
  The Clinical Journal Has a New Editor, 1
  The Physiological Effects of Athletic Injury, 191
  Future Directions for the *Clinical Journal of Sport Medicine*, 57
  Has the Time Come for Protective Headgear for Soccer?, 121
Elderly persons, physical activity and knee osteoarthritis in, 188

Emotional responses, to ACL injury, longitudinal examination of, 58
Endurance, creatine loading for, 105
Endurance exercise, moderate glycemic meal and, 54
Epicondylitis, chronic lateral, topical diclofenac for, 56
Epistaxis, recurrent, in college athlete, case report, 239
Exercise
  bronchial response to ipratropium bromide and, in cross-country runners, 170
  eccentric kinetic chain, for PCL rehabilitation, 142
  endurance, moderate glycemic meal and, 54
  serum lipoprotein profile and, 52
  stretching before, 221
Exercise training, for hypertension, 104
Exercise-associated hypogammaglobulinemia, case report, 46
Exercise-induced rhabdomyolysis, in woman, case report, 233
Exertional compartment syndrome, bilateral chronic, of forearm, in brothers, case report, 91
Exertional headache, in collegiate gymnast, case report, 182

Fatness
  body, and injury rates in high school football linemen, 51
  fitness and mortality and, in men, 187
Female athletes. *See also* Women
  bilateral first rib and unilateral second rib stress fractures in, case report, 177
Fibula, bilateral midfibular stress fractures, in collegiate football players, case report, 95
Fitness
  fatness and, in men, 187
  lipid profiles in young adults and, 186
  mortality and
    in men, 187
    in Norwegian men, 53
Flexibility, adolescent growth and, 24
Football players
  collegiate, bilateral midfibular stress fractures in, case report, 95
  high school, medical coverage of, in Wisconsin, 209
  high school linemen, body fatness and injury rates in, 51
  renal fracture secondary to blunt trauma in, case report, 236
Forearm, exertional compartment syndrome of, bilateral chronic, in brothers, case report, 91
Fractures
  pelvic, from low-impact trauma, in hockey player, case report, 179
  renal, secondary to blunt trauma, in football player, case report, 236
  stress
    bilateral first rib and unilateral second rib, in female athlete, case report, 177
    bilateral midfibular, in collegiate football players, case report, 95
    of ulna, in baseball pitcher, case report, 231
    upper extremity, clinical features of, in athletes, 199

Glucose, moderate glycemic meal, and endurance exercise performance, 54
Gluteal pain, radiating, due to quadratus femoris muscle tear, case report, 228
Groin injuries, in National Hockey League, 151
Groin pain, adductor-related, active physical training for, 245
Growth, adolescent, and changes in flexibility, 24
Guillain-Barré syndrome, case report, 241
Gymnasts, collegiate, exertional headache in, case report, 182

Headache, exertional, in collegiate gymnast, case report, 182
Headgear, for soccer, 121
Health insurance, coverage of high school football by, in Wisconsin, 209
Hepatotoxicity, anabolic steroid-induced, 34
Herpes gladiatorum, recurrence rates with valacyclovir treatment, in wrestlers, 86
High school football players
  linemen, body fatness and injury rates in, 51
  medical coverage of, in Wisconsin, 209
Hip adductor and flexor muscle strength, test retest reliability of, 79
History, preparticipation physical examination, discrepancies in, 124
Hockey. *See* Ice hockey
Hypertension, exercise training for, 104
Hypogammaglobulinemia, exercise-associated, case report, 46

Ice hockey players
  intercollegiate
    causal analysis of, 30
    factors that predict, 248
  Junior A level, injuries in, 70
  National Hockey League, groin and abdominal strain injuries in, 151
  pelvic fracture from low-impact trauma in, case report, 179
Imaging. *See specific modalities*
Injuries. *See also* Fractures; Ruptures; Trauma
  anterior cruciate ligament, psychology of, longitudinal examination of, 58
  athletic, psychological effects of, 191
    longitudinal examination of, 58
  body fatness and rates of, in high school football linemen, 51
  groin and abdominal strain, in National Hockey League, 151
  in commercial whitewater rafting, 18
  intercollegiate ice hockey
    causal analysis of, 30
    factors that predict, 248
  Junior A level ice hockey, prospective analysis of, 70
  local muscle, stretching before exercise and, 221
  musculoskeletal, in 6-day track races, 216
  skiing and snowboarding, in children and adolescents, in Southern Alberta, 9
  women's rugby, epidemiology of, 75
Intercollegiate ice hockey injuries
  causal analysis of, 30
  factors that predict, 248
Ipratropium bromide, bronchial response to, in cross-country runners, 170

Jumper's knee, surgical management of, 58
Junior A level ice hockey injuries, prospective analysis of, 70

Kinetic chain exercise, eccentric, for PCL rehabilitation, 142
Knee
  jumper's knee, surgical management of, 58
  osteoarthritis, physical activity and, in elderly persons, 188

Life expectancy, active, smoking, physical activity and, 244
Lifestyle, and structure physical activity programs, for sedentary adults, 185
Lipid profiles, fitness changes and, in young adults, 186
Lipoproteins, diet and exercise and, 52
Literature review, stretching before exercise and local muscle injury, 221
Loss of consciousness, and neuropsychological decrements after concussion, 193

Magnetic resonance imaging
  after patellar tenotomy, 129
  of acute medial tibial stress syndrome, 101
Men
  fitness, fatness, and mortality in, 187
  Norwegian, physical fitness changes and mortality changes in, 53
Mineral, bone, training-induced gains, decreased training and, 246
Mortality
  fitness and fatness and, in men, 187
  physical fitness and, in Norwegian men, 53
Muscle injury, local, stretching before exercise and, 221
Muscle strength, hip adductor and flexor, test retest reliability of, 79
Musculoskeletal injuries, in 6-day track races, 216

National Collegiate Athletic Association (NCAA), Division I athletic program, creatine supplement use in, 167
National Hockey League, groin and abdominal strain injuries in, 151

NCAA. *See* National Collegiate Athletic Association
Neuropsychological decrements, after concussion, loss of consciousness and, 193
Norwegian men, physical fitness changes and mortality changes in, 53

Osteoarthritis, knee, physical activity and, in elderly persons, 188

Pain
  adductor-related groin, active physical training for, 245
  patellofemoral syndrome, chronic, long-term outcome in, 102
  radiating gluteal, due to quadratus femoris muscle tear, case report, 228
Patellar tendinopathy, surgical management of, 58
Patellar tenotomy, ultrasound and MRI appearances after, 129
Patellofemoral pain syndrome, chronic, long-term outcome in, 102
Pelvic fracture, from low-impact trauma, in hockey player, case report, 179
Performance
  endurance exercise, moderate glycemic meal and, 54
  stroke, in Tennis, carbohydrate supplementation and, 55
Physical activity
  and benign prostatic hyperplasia, 106
  and knee osteoarthritis, in elderly persons, 188
  and risk factors for cardiovascular disease, 103
  smoking and active life expectancy and, 244
  structured programs, lifestyle and, for sedentary adults, 185
Physical examinations, preparticipation
  collegiate experience, 3
  history, discrepancies in, 124
Plantar fascia, spontaneous rupture of, case report, 48
Pneumomediastinum, spontaneous, in collegiate volleyball players, case report, 97
Posterior cruciate ligament, rehabilitation of, eccentric kinetic chain exercise for, 142
Preparticipation physical examinations
  collegiate experience, 3
  history, discrepancies in, 124
Protective headgear, for soccer, 121
Psychological effects of athletic injury, 191
  longitudinal examination of, 58

Quadratus femoris muscle tear, radiating gluteal pain due to, case report, 228

Radiography, stress, in diagnosis of ankle instability, 40
Rafting, commercial whitewater, injuries in, 18
Range of motion, adolescent growth and, 24
Reconstruction, anterior cruciate ligament
  immediate weightbearing after, 189
  in adolescent soccer and basketball players, 138
Rehabilitation, posterior cruciate ligament, eccentric kinetic chain exercise for, 142
Renal fractures, secondary to blunt trauma, in football player, case report, 236
Rhabdomyolysis, exercise-induced, in woman, case report, 233
Rib stress fractures, bilateral first and unilateral second, in female athlete, case report, 177
Rotator cuff disease, arthroscopic surgery or noninvasive therapy for, 247
Rugby players, women, epidemiology of injuries in, 75
Runners
  cross-country, bronchial response to ipratropium bromide in, 170
  ultramarathoner's ankle, 216
Ruptures
  Achilles tendon, incidence of, in Scotland, 157
  spontaneous, of plantar fascia, case report, 48

Safety, creatine supplementation concerns, 119
Scotland, Achilles tendon rupture in, incidence of, 157
Sedentary adults, lifestyle and structure physical activity programs for, 185
Serum lipoprotein profile, diet and exercise and, 52
Skiing injuries, in children and adolescents, in Southern Alberta, 9
Smoking, and physical activity and active life expectancy, 244
Snowboarding injuries, in children and adolescents, in Southern Alberta, 9
Soccer players
  adolescent, ACL reconstructive surgery in, 138
  protective headgear for, 121
Spontaneous pneumomediastinum, in collegiate volleyball players, case report, 97
Spontaneous rupture, of plantar fascia, case report, 48
Sprint power, creatine loading for, 105
Steroids, anabolic, hepatotoxicity, 34
Strain injuries, abdominal, in National Hockey League, 151
Strength, hip adductor and flexor muscle, test retest reliability of, 79
Stress fractures
  bilateral first rib and unilateral second rib, in female athlete, case report, 177
  bilateral midfibular, in collegiate football players, case report, 95
  of ulna, in baseball pitcher, case report, 231
  upper extremity, clinical features of, in athletes, 199
Stress radiography, in diagnosis of ankle instability, 40
Stress syndrome, acute medial tibial, MRI or TPBS for imaging of, 101
Stretching, before exercise, 221
Stroke performance, in Tennis, carbohydrate supplementation and, 55
Surgery
  ACL reconstruction
    immediate weightbearing after, 189
    in adolescent soccer and basketball players, 138
  arthroscopic, for rotator cuff disease, 247
  for Patellar tendinopathy, in athletes, 58

Tendinopathy, of Patellar tendon, surgical management of, 58
Tennis, stroke performance in, carbohydrate supplementation and, 55
Tenotomy, patellar, ultrasound and MRI appearances after, 129
Testicular function, intensified training and detraining and, 203
Tibial stress syndrome, acute medial, MRI or TPBS for imaging of, 101
Tinea gladiatorum, topical vs oral treatments for, 161
Track, musculoskeletal injuries in 6-day races, 216
Training
  active physical, for long-standing adductor-related groin pain, 245
  decreased, and training-induced bone mineral gains, 246
  exercise, for hypertension, 104
  intensified, effects on testicular function, 203
Training-induced bone mineral gains, decreased training and, 246
Trauma
  blunt, renal fracture secondary to, in football player, case report, 236
  low-impact, pelvic fracture from, in hockey player, case report, 179
Triple-phase bone scan, of acute medial tibial stress syndrome, 101

Ulna, stress fracture of, in baseball pitcher, case report, 231
Ultramarathoner's ankle, 216
Ultrasound, after patellar tenotomy, 129
Upper extremity stress fractures, clinical features of, in athletes, 199

Vagal activity, in response to ipratropium bromide, in cross-country runners, 170
Valacyclovir, recurrence rates of herpes gladiatorum with, in wrestlers, 86
Volleyball players, collegiate, spontaneous pneumomediastinum in, case report, 97

Weightbearing, immediate after ACL reconstruction, 189
Whitewater rafting, commercial, injuries in, 18
Wisconsin, medical coverage of high school football in, 209
Women
  exercise-induced rhabdomyolysis in, case report, 233
  rugby injuries to, epidemiology of, 75
Wrestlers
  herpes gladiatorum in, recurrence rates with valacyclovir treatment, 86
  tinea gladiatorum in, topical vs oral treatments for, 161

Young adults, lipid profiles, fitness changes and, 186
